REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-39 are considered allowable since when reading the claims in light of the specification none of the references of record alone or in combination disclose or suggest the combinations of limitations specified in the independent claims. The prior art of record (US 2005/0047782) relates to method and apparatus for registering multiple remote nodes in an Ethernet passive optical network. During an initial discovery cycle, the system receives a solicitation message from the central node at a remote node, wherein the solicitation message assigns a discovery slot in which an unregistered remote may transmit a response message to the central node for registration. As to claims 1-13, the prior art of record does not teach setting a local time at the remote node according to the received time stamp; and after a random delay from the beginning of the discovery slot, transmitting the response message to the central node during the discovery slot with a response transmission probability that is less than or equal to one.

As to claims 14-26, the prior art of record does not teach set a local time at the remote node according to the received time stamp; and after a random delay from the beginning of the discovery slot, transmit the response message to the central node during the discovery slot with a response transmission probability that is less than or equal to one. As to claims 27-39, the prior art of record does not teach setting a local

time at the remote node according to the received time stamp; and after a random delay from the beginning of the discovery slot, transmitting the response message to the central node during the discovery slot with a response transmission probability that is less than or equal to one. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
